BRICKER OF OHIO FOR VICE PRESIDENT

Thomas E. Dewey, Governor of New York, was nominated for President of the United States at noon Wednesday by the Republican convention in Chicago.

John W. Bricker, Governor of Ohio, was nominated for Vice President by the Republican Convention in Chicago shortly before 2 p. m.

Governor Dewey was nominated on the first ballot receiving 1056. One vote from Wisconsin was cast for General Douglas MacArthur.

The nominating vote was said to be a record for unanimous decision.

John W. Bricker, Governor of Ohio, was to be placed in nomination for Vice President and shortly after noon it appeared he would be the choice of the convention.

Governor Dewey, notified in New York of his nomination, left the Empire City for the Convention in Chicago and will deliver his address tonight.

Wendell L. Willkie, the 1940 Presidential nominee for President, telegraphed his congratulations to Dewey and received a prompt thanks.

A platform committee had been appointed to notify Dewey of his nomination and to invite him to address the convention.

On the roll call for a candidate for Vice President all states declined to vote by passing, except Ohio. This was taken to indicate Bricker would be placed in nomination.

The Republican 1944 platform is yet to be adopted.

Governor Earl Warren of San Francisco declined the Vice Presidential nomination.

R. S. BOWERS FOR REPRESENTATIVE

You will find my name on the ballot in the July Primaries opposing Henry G. Lehman.

I am 68 years of age and in good health; he is 33 years of age, and if his health is bad it has happened since May 9th 1944, when I filed on the ticket.

I have a son (Foster Son) in the Navy since Dec. 31, 1941; a son in law 38 years of age in the Army; and another son in law 33 years of age in the Navy; he has two small children.

If the Army Navy, or any war industry will take me I will waive my age, resign as Chairman of the Ration Board of Burleson county, close my law office, and withdraw from this race.

No bank, merchant, picture show, or other business will employ a man in the draft age, why should our district employ one in the legislature? I believe I am qualified to fill Mr. Lehman's place until the war is over, and then if any returned soldier wants it, I will not even run for a second term.

I favor all laws that will be necessary to make a lasting Peace after this war; many amendments and (turn to page eight)

Softball League To Be Organized

Possibly the whole community is aware of the fact that the City of Cameron is lighting the City Park with large flood lights.

We are grateful to the city officials for making this civic improvement. The only hindrance to the completion of the project is the securing of WPB approval for a larger transformer. We are informed that this action is expected very soon.

Therefore, we expect to be using the lighted city park right away. To that end we are hoping to get a softball league organized to play under the lights. Every person who is at all interested in playing any softball is urged to meet at the City Park next Monday night at 8 o'clock.

We will formulate some definite plans for the organization of a league at that time. If the lights are not on by that time, we will have a short twilight game, as well as formulate plans for the league.

So be present Monday night if you are interested in softball.

Grade 1 Tires Still Hard to Get; Milam Shortage is Actue

The grade one tire situation remains tight in Milam County despite reports of bright prospects for more passenger car tires this year, chairman Perry of the Milam County War Price & Rationing Board reported today.

"Our unfilled applications because of lack of quota are mounting each month, notwithstanding the increased quotas as allotted by the national office in Washington," the Chairman said. "The supplements for June enable this and other boards in OPA Region Five to issue less than one new tire out of three applications unfilled but approved."

Chairman Perry advised that even though the tire inspector may have certified need for new tires, that does not necessarily mean that a motorist will be able to secure certificates from the board.

"Our Board, like the others, simply does not have a sufficient quota to supply the needs of all applicants, and therefore must issue certificates in accordance with the quota and essentiality of work in relation to the war effort," Chairman Perry declared. "It is absolutely essential, therefore, that every motorist repair and recap his present tires to secure the maximum mileage. We still have a big gap in the tire situation, and failure to repair and recap tires may mean that some motorists will have to put their cars away for a while."

The Chairman said the Houston District OPA Office had informed him that recapping of tires had slowed down considerably in the past 60 days.

MILAM BOND SALES ARE NEEDING BOOST

Sale of E bonds in Milam county was far below quota levels with only a few days left to go.

Sale of negotiable bonds appeared to be ahead of the schedule.

Here is a correct summary of sales, reported up to noon Tuesday in the city of Cameron: Two banks in Cameron have sold a total of \$64,228.75 in E bonds; the postoffice has sold a total of \$3,056.25 in E bonds and Texas Power & Light Company has sold a total of \$4,517.75 in E bonds. Grand total of E bonds sold in Cameron is \$71,802.75.

Cameron banks have sold \$1,111,000 in negotiable bonds and the grand total of both types of bonds sold and processed in Cameron is \$1,182,802.75.

While no reports were available from the county at large, it appeared likely that E bond sales may be lagging badly. The county quota in E bonds is \$265,000 and around \$190,000 remain to be accounted for if the quota is reached. The overall quota in the county is \$1,535,000 which includes all types of bonds to be sold.

The city of Cameron has accounted for all save some \$352,000 of the entire quota for the county. The usual confusion has resulted in figures published day by day. It was not ascertained whether all E bonds sold here can be credited to the city's quota of \$70 thousand.

Henceforth figures will be quoted on a county wide basis.

FLEE RED ARMY IN DISORDER AT MINSK

German arms in the East faced disaster today as their armies retreated in disorder before Minsk.

The Russians had driven to within 37 miles of Minsk, the capital of White Russia. A noon dispatch said the Germans were fleeing in disorder.

In Washington at noon Secretary of State Cordell Hull indicated this country might sever diplomatic relations with Finland.

The entire war picture was dark for the Germans. The Berlin radio admitted that the British under Gen. Montgomery had broken through the German lines at Caen. Allied airmen were slaughtering Germans all over the Normandy battle front.

American fortress bombers blasted 4 aircraft factories in Germany. The 5th Army in Italy had advanced to within 25 miles of Leghorn. This army alone, led by General Mark Clark, has taken 25,000 German prisoners.

Since the war began there have been 244,158 American casualties.

5 OUT OF 7 VESSELS SUNK AT CHERBOURG

A German effort to evacuate embattled troops at Cherbourg has been smashed and 5 out of seven ships sent to the area to take their forces out have been sunk.

The Allies were making slow progress to wipe out the pocket as the Germans, ordered to resist to the last were fighting with fury and great determination. The fight was growing more intense by the hour. Despite heavy assaults by land and air the beleaguered Germans were still holding out but their lines were crumbling.

The German high command called upon the units at Cherbourg to fight to the last man. A total of 1200 persons have been taken in the last 24 hours. The Allies are within one mile of the port. At noon it appeared the Germans could not hold out much longer.

Strong Allied forces were landing in the Caen sector off the coast of Normandy.

German reporters spoke gloomily of the situation. Not only were the Germans dispirited over Normandy but generally they were admitting the picture is black for the German nation.

The Russians have begun a large scale offensive on the Eastern front in White Russia and have breached the German lines in two places. The spearhead is being thrust at Berlin. The Germans are growing more alarmed by the hour. They are now fighting on three fronts.

In France 500 Allied planes were blasting away at the Germans. A squadron of B-26 Marauders destroyed 4 enemy gun emplacements.

The retreat of the Germans in northern Italy has come to an end and stiff resistance is being made.

News from the Pacific said that the Americans are being strongly reinforced on Saipan 1500 miles from Tokyo.

CHRISTIAN SCIENCE SERVICES
"God is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 2.

The Golden Text is: "Who is God, save the Lord? and who is a rock, save our God? God is my strength and power: and he maketh my way perfect" (II Samuel 22:23, 33.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "In God is my salvation and my glory: the rock of my strength, and my refuge, is in God" (Psalms 62:7.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "There is no power apart from God. Omnipotence has all-power, and to acknowledge any other power is to dishonor God" (page 228.)

CHERBOURG FALLS TO THE AMERICAN ARMY

Cherbourg, great French port, occupied for 4 years by the Germans, fell to the American army sometime during the night of Tuesday and by Wednesday morning all resistance had ceased.

The Germans held the port city for 20 days following the invasion. The battle for the Normandy Peninsula may have been one of the most bloody of the war with the exception of Stalingrad.

When the city fell the Germans who surrendered number several thousand. Most of the troops of Hitler had been killed. Lt. Gen. Carl Von Schlieben on whom Hitler had caused to be pinned the Iron Cross a short time before the fall of Cherbourg, was captured, it was announced in a special communication from the headquarters of General Eisenhower.

Admiral Walter Henik, a German naval commander, was also captured. The Admiral and General Schlieben, were hidden in a wine cellar.

By noon Wednesday the Americans were in complete control. While the Germans carried out demolition orders American engineers were expected to have the port in readiness for shipping within 48 hours.

Captured were large quantities of German war materials.

General Montgomery has launched a large scale attack east toward the Caen sector. The attack was preceded by an artillery barrage similar to that of El Alamein in Africa.

The Red Army had turned west to Berlin and in the wake of the great offensive the cities of Votibsk and Zhlobin have been captured. The Russian army is cutting straight for the German capital.

While some 45,000 German troops are bottled up on the Eastern front, their capture was not yet consummated.

Lt. Warren Brashear Wounded on Invasion Day Over France

Lt. Brashear suffered face wounds fighter pilot, was wounded in the great air action over France on June 6, 1944, the day of invasion.

A letter has just come through to his parents, Mr. and Mrs. Womack Brashear in which Lt. Brashear tells as much as possible of the invasion. It was a tough assignment and completed at great sacrifice.

Lt. Brashear suffered face wounds from glass which was shattered by German bullets. Airmen fly with bullet proof cowlings and this fact no doubt accounts for the fact that Lt. Brashear escaped.

He has been given the Purple Heart. The wounds suffered were across the nose and cheeks. A small fragment of glass entered one of his eyes. Lt. Brashear was out two days but is back in the fight and tells his parents to not worry.

WAR BONDS FOR MEN WOUNDED IN WAR

A movement which has already attracted considerable attention and which has resulted in the banking of initial funds, has for its purpose the purchase of War Bonds for wounded veterans of this war.

John C. Solomon, Pastor of First Presbyterian Church, started the movement in consultation with others when on the day of invasion of France, a collection was taken at the church with contributions from people who went to the church to pray.

These funds have been deposited and will be used to buy bonds for returning wounded veterans whose need appear greatest. It is proposed to have a committee to award these bonds.

It is noted that such a move has been started in other places. Right now during the 5th War Loan an appeal is made. If you cannot buy a bond you can buy stamps which can be converted into bonds, or you can give money, little or much.

Cameron banks and Cameron newspapers have been asked to receive contributions. The movement has two worthy objectives: Veterans will receive some token of appreciation from men and women who appreciate their sacrifices and the purchase of bonds and stamps will aid the war effort.

W. E. Braden Back From San Diego on Leave From Duty

W. E. Braden, better known to his friends here as Speedy Braden, is home from San Diego, where he is serving in the navy.

Speedy picked up the name from the old days when he was a ring favorite here. Speedy says that there are some 19 Milam county boys in his outfit and Texans galore. It is certain, he says that Texas is writing a great history in this war. "Why, when they find out we are from Texas, they treat us a lot better," said Braden.

He was inducted in May and is home to visit his wife for the first time since he reported for duty.

OLD PAPERS VITAL TO WAR EFFORT

The co-operation of every citizen is needed. The first pickup will be made Wednesday afternoon, June 28.

Saturday July 1st Last Day to Purchase Motor Vehicle Stamp

Saturday, July 1, is the last date to buy your Motor Vehicle Tax Stamp and after that date a penalty will attach.

Wm. J. Ott, Deputy Collector of Internal Revenue, with offices in Cameron, has requested The Herald to make an appeal to car and truck owners. Very few stamps have been purchased at the local postoffice.

A thorough check up will be made by the Internal Revenue Department soon to determine if stamps have been placed on cars. The law provides these stamps must be pasted on windshields of cars.

Only \$5 stamps will be sold at the postoffice. Any other stamp which are used for fractional parts of the year when the vehicle is in operation must be purchased through the local revenue agent.

Republicans Making Another 1920 Bid to Wreck World Peace

The Republican Party was well on its way Tuesday to reiterate its stand of 1920 when it wrecked world peace and laid the foundations for World War No. 2 by repudiating responsibility and adopting a quasi-isolationism.

Thomas E. Dewey of New York, will be the nominee for President. He has the required number of votes.

Congressman Joe Martin was named Chairman of the Convention. His address was an ignorant monstrosity, an appeal to the people to turn their backs on world progress and become isolated from the world.

This morning Wendell Willkie in New York denounced the Foreign Policy Plank in the Republican platform as another 1920 stand. On the night that President Harding was elected he declared the League of Nations dead.

A heat wave had struck Chicago. Fat politicians were being rendered rapidly and one had already died.

BOND RALLY HERE NETS \$122,125 IN SALES

Cameron's bond rally Saturday afternoon resulted in the sale of \$122,125 in War Bonds to boost the 5th War Loan, it was reported shortly before noon Monday by John Prude, theatre manager who was host to the movie stars.

Mr. Prude said stockholders of Citizens National Bank bought \$100 thousand dollars in bonds of the negotiable type and it was presumed that the rally resulted in the additional sale of \$22,125 in E bonds.

Wild Bill Elliott, western movie star, Jimmy Wakely, singer and Adalee Mara, starlet, were given a fine reception by a crowd that spread to all sections of the east lawn of the court house.

Chas. M. Hicks, county war finance chairman, met the stars at the city limits and escorted them, riding in a state police squad car which was preceded by a truck with siren from the central fire station.

The crowds were kept waiting while the stars got their lunch and autographed pictures for admiring fans.

Have a Coca-Cola = Come on over

...or keeping youth happy at home

Keeping young folks happy at home is mostly a matter of having a house in which they and their friends feel welcome. So don't forget Coca-Cola... it's always a big attraction for the young crowd. It says better than words, *Come on over to our house... we're glad to see you.* Be sure there's "Coke" in your icebox. There's no more cordial invitation, nor one more refreshing, than the three simple words... *Have a "Coke".*

For State Senator 2ND TERM

In making my announcement to serve the people of the 13th Senatorial District as their State Senator for a second term, I would, indeed, be an ingrate should I fail to first express my deep appreciation for the signal honor conferred upon me when you elected me the first time. I am also appreciative of the helpful suggestions and co-operation of my constituents during my first term as your State Senator.

As your State Senator I have acted in a dual capacity, in this, that I favored all legislation which I considered beneficial to the people I represent and, in the second place, I have been ever watchful to see no measure was enacted into a law which I deemed detrimental to the people, not only of our own Senatorial District, but the people of Texas Generally.

If honored by your suffrage and elected to a second term I pledge you that I shall continue to give my undivided attention to your affairs and render that service which is indispensibly necessary to the making of a faithful public servant.

On account of the present gasoline and tire emergency and the inconveniences which necessarily follow, and to which all of us gladly submit ourselves, it will be impossible for me to see each and every voter. To those whom I fail to see I earnestly solicit your support and influence. I definitely assure you that any act done or word said in my behalf will be deeply appreciated.

Gratefully yours,
KYLE VICK.

From a Small Town Banker's Letter

"My son, according to his last letter, was in England. Perhaps he is in France today. My neighbor's boy lies wounded in a South Pacific hospital. These youngsters are fighting, and dying if need be, for everything that I stand for and that I as an American hold dear.

"On this Invasion Day, as I pray for their safety and their victory, I feel humble as I reflect how small is my contribution compared to theirs. And I am determined that my every energy and every available minute will be devoted to their support. I realize that my opportunity and my duty lie close at hand—THE FIFTH WAR LOAN DRIVE. I shall glory in the chance to make this my greatest effort yet in the war. I shall keep faith with my boy and my neighbor's son."

Pvt. Clayton Dierr Commended For Heroic Action In Air Corps

Pvt. Clayton Dierr, is a member of the P-47 Thunderbolt Group recently commended by Lt. Gen. James H. Doolittle for "extraordinary heroism in rescuing a Bombardment Wing from vicious and persistent attacks by enemy fighter aircraft."

Pvt. Dierr, former football player at Yoe High School, amateur golden gloves boxer, is a member of the air group to which Lt. Warren Brashear, is attached.

Led by Col Glenn E. Duncan, a 25 year old Texan with 17 victories over the Luftwaffe, this Group is one of the outstanding fighter units operating in the skies over Germany. Among the first to engage in low level attacks on Nazi ground installations the Group introduced dive-bombing by P-47's in the European Theatre of Operations.

Marking the Group's first anniversary in foreign service, Col. Duncan, in an order of the day, paid high tribute to the members of his command:

"Our success in the air has been made possible by the men on the ground," he declared. "Hours of preparation and hard work are behind every victory our pilots have scored over the Hun."

Lt. Warren Brashear Gets German Plane In Heroic Air Attack

Lt. Warren Brashear, Thunderbolt fighter pilot, based in England, and holder of the Distinguished Flying Cross, has again become a stand-out in the air war against Germany.

This time Lt. Brashear is credited with spectacular mission in which he destroyed a German plane on the ground during an attack over France. Led by Col. Glenn Duncan, Jr., a 25 year old Texan, Lt. Brashear is helping write a brilliant chapter for Texans in the Army Air Corps.

Sgt. Jerry Krenek May Never Walk Again In Normal Way; Both Feet Shot Away In Action Over German Skies; was On Fortress Bomber

Sgt. Jerry Krenek may never walk again in a normal way. Both feet have been shot away in an air battle over German skies, it was learned here Monday.

Twice within a month Sgt. Krenek has received wounds. This time very serious. According to information which has come written by Sgt. Jerry Krenek, he says both feet were partially shot away and both heels are badly injured. "I may be able to walk again, but it looks doubtful," Sgt. Krenek is reported as saying.

According to information reaching The Herald Monday he was wounded on June 13, 1944, on a bombing mission over Germany. Sgt. Krenek has been stationed in Italy in the Mediterranean theatre of air.

He has been overseas 6 months with the 15th Air Force in Italy. He was an engineer gunner of a B-24 Liberator bomber.

Sgt. Krenek was inducted into service on November 9, 1942. He gradu-

ated from Kessler Field, Mississippi, and later at gunnery school at Harlingen in Texas. He completed his combat training in Murco, Calif. He is 27 years old. Before entering service he worked for the Zak Motor Company in Texas City.

What is believed to be the largest mass baptism of American troops in Italy occurred when 30 soldiers from a front line infantry division filed down to a beach on the Tyrehenian sea and sat on their upturned helmets at the water's edge while Capt. LeRoy W. Raley, Cameron, Texas the regimental chaplain, ran through the preparatory service. The Baptists were immersed in the sea while the Methodists were sprinkled with drops from the chaplain's helmet.

Mrs. G. F. Layne of Milano was a Cameron visitor on Tuesday, and brought in a nice collection of magazines for the boys at McCloskey Hospital.

War Loan Chairman

E. C. COLE

Mr. Cole leads the 5th War Loan drive in Cameron. This is the most important of all the campaigns to finance the war since the invasion has begun. Getting away to a slow start the 5th War Loan here is expected to pick up speed under Mr. Cole's direction.

Mr. Cole has arranged a meeting of bond workers tonight at the Cato Cafe. Workers are expected to begin a canvas of the people here Wednesday. The city's quota is small and should be raised in a few hours once the work begins.

Cameron has been the financial field from which has been harvested millions of dollars for the war effort. Mr. Cole has been local leader in these major contributions to financing the war. Much depends on his leadership. His program Tuesday night is expected to produce the required enthusiasm for the 5th War Loan drive in Cameron.

Mr. and Mrs. Mike Wiley of Port Arthur are spending a few days here with his mother, Mrs. Bob Wiley.

Mrs. Claude Loftin has received word from her son, Cpl. Billie Loftin since the invasion saying that he is doing fine. Cpl. Loftin is stationed somewhere in England.

Cameron People Are Thanked for Building Wards at McCloskey

Mrs. F. C. Fahrendorf has received the following letter from the American Red Cross thanking the people of Cameron and Milam county for their help in furnishing a ward at McCloskey Hospital for wounded soldiers:

"I regret being unable to see you again and to know better the good people of Cameron, who have contributed the sun room furniture for two Wards in this hospital. It is in use every minute of the day and the boys are enjoying it. They also now have a comfortable place in which to talk with their relatives as well as to lounge. The small Plaques are in the widow sills clearly identifying it as a gift of the generous Cameron people who are so wholeheartedly honoring the men of this war.

"A home-like atmosphere contributes to the morale of a convalescing soldier who is eager to get well in order to resume his responsibilities as a soldier or as a civilian. Every article Cameron contributed—the pool and ping pong tables, bicycles, pianos, chairs, ottomans, curtains, vases, plants, tables, games, afghans, ashtrays, lamps, pictures and many others are all practical and are being thoroughly enjoyed.

"As you know I am leaving McCloskey and Red Cross very shortly because of personal responsibilities. I am so grateful for having had the opportunity to work with the people of Cameron who have been interested in this worthwhile project. We have completed securing the articles, the drapes are up, and there is the satisfaction of knowing that your job was well done with the ready response of Cameron which made it possible.

"I wish to thank you and the other members of the Camp and Hospital Council Committee for your interest and assistance in behalf of the patients in those Wards who are enjoying the results of your efforts.

Yours very truly,
Mrs. Dorothy Wilkinson,
Field Director.

Milam Employers to Hire Male Workers Without Referrals

Employers in Milam County will be permitted to hire male workers without referral by the United States Employment Service under authority of Area Director of the War Manpower Commission and the Temple Area Labor-Management Committee. This constitutes a special arrangement under the Priority Referral Program of the War Manpower Commission, which goes into effect at midnight, June 30, R. C. Moody, local manager of the U. S. Employment Service, said, and it is subject to change if operating experience and national manpower needs dictate.

No local office of the United States Employment Service is located in Milam County, he said, and undue hardship would be imposed upon workers if they were required to make a trip to Temple to secure a job.

It was emphatically pointed out, however, that while these arrangements permitted a worker to seek employment within the county without having to be channelled through the Employment Service, that the Employment Stabilization regulations were still in effect and that any worker now employed or employed during the preceding 60 day period in an essential industry could not be hired except upon referral by the United States Employment Service or upon presentation of a Statement of Availability. R. C. Moody states that while workers would not be required to go through the USES when

seeking a job inside the county that they should understand that no such arrangement exists in counties in which an office of the USES was located and that in those counties no employer should hire a male worker except upon referral of the USES.

One of the objectives of the Priority Referral Program is to keep casual workers on their present jobs, he continued, and he urgently requested less-essential employers to refrain from hiring essential workers pointing out that such practice was in violation of the Stabilization Plan and could, if allowed to reach proportions detrimental to the war effort by a reason for remanding the arrangement in the Priority Referral Program in Milam County.

No restriction whatever has been placed on agricultural workers, so long as they remain in agricultural work, he said.

GRASS GROWS THROUGH TOMATO

Clarence Coats has brought to The Herald a large, ripe tomato through which Bermuda grass is growing. This is unusual and there has been no accounting for the manner in which the grass grew through the tomato. On the top of the tomato the grass shoot is green. When plucked long grass roots stemmed away from the tomato.

BOWERS

(continued from page one)

new laws will be necessary to help rebuild our men and nation; the G. I. BILL OF RIGHTS just passed by Congress and signed by the President will require our best efforts.

I favor the local option method of handling the liquor question; we have that now, and the only thing required is to back the State Liquor Board in the enforcement of the present law; this I will do.

I favor paying the old age assistance and stop harassing our old people; one month they are on the next month they are off; they spend so much time and worry going to see the supervisors, and having them come to see them; why all this worry for our old people; I am strictly against the present way of handling it.

I favor good primary schools of 8 grades in every school district; I favor good respectable buses; some of them on the roads are a disgrace to Texas and dangerous for our children; a good school close to home for small children must be maintained. Good salaries for teachers will make the teaching profession attractive to good men and women.

I favor free text books for all schools, public, private and parochial; all children should be taught out of same books, and all people pay taxes into the free text book fund.

I favor a new Primary Election Law in place of the one the Supreme Court of the United States has struck down. I see in the Giddings News just this week where an organization of the negroes is sounding out the local candidates as to whether they favor it, and claiming 700 votes in Lee County. In 1867, our people marched between Federal Soldiers to vote, and many negroes were elected to office, and they continued to elect them until around 1900, when the "WHITE MAN'S PRIMARY" was organized, and we have had little trouble until now. I do not believe any negro is a Democrat, he is being agitated by Northern Negro Haters (who are posing as the friends to the Negro.) I won't the Negro to have his place in our country and give him everything possible for his advancement and happiness but, I am in favor of White Supremacy; and against social equality; we must preserve these rights, and as for me I do not want their votes in this primary and I notify them now that if I am elected the law will be fixed so as to keep down this race trouble. We do not want the return of the carpet-baggers and scalawags, and will try to do it by law, and not by return of the Ku Klux Klan, as it had to be done in 1867 to 1880. It is going to take an old, red-blooded, born in the south, he man to do this work and You had as well vote for me to help do it; I was born in 1875 and know the ins and outs of those things.

Thousands of good men have given up their jobs; have either sold their business, or, they are letting the wife, father or other relatives keep the work going; a son in law of mine gave up a \$300 per month job; he is 33; the Western Auto Man at Caldwell over 30 left his store in hands of his wife and is in the Navy; you see them every where in every town.

I do not think I should be required to campaign; I would like to have cards or letters from supporters; I will appreciate any good word or work any citizen will give me. I feel like my age, experience and patriotism will enable me to do real effective service the next two years; and in case any returning veteran wants the place, I will not run for a second term. I believe this statement will do good in this district whether I am elected or not. It won't be any disgrace to be defeated, if I can encourage my opponent to stand fast and advocate and put into effect the above suggestions.

Respectfully,
R. S. BOWERS,
Caldwell, Texas.

GERMANS PRESSED INTO DEATH POCKET

Remnants of the once powerful army defending Cherbourg and the Normandy peninsula in France were being wiped out in bloody action that saw house to house fighting and the American in possession of one third of the city.

The Germans have conceded the loss of the great French Port of Cherbourg to the Allies.

All that remained of the German force were being driven into a narrow portion of the city and there was no evidence of a surrender. The Germans were fighting to the last man, having refused another ultimatum to surrender.

Monday morning 4500 German prisoners were taken. In all over 20 thousand prisoners have been taken by the Allies.

The Germans were being bombarded from the sea and from shore batteries and bombed from the air. Hand to hand fighting was going on

in the streets of the city.

The powerful Red army was breaching the German defenses on a 220 mile front as the great offensive opened Monday on a grand scale.

Vitebsk, bastion of German defense on the White Russian front, fell early to the Red army. Its capture was reported imminent on Sunday. Five German divisions, some 50 thousand men, are surrounded and are facing death or capture.

The robot rocket planes were spilling on English soil in increasing number. Bad weather was impeding efforts to combat the new weapon.

Allied airmen shot down 25 German planes in operations over German held territory. We lost 9 planes.

Hon. Kyle Vick of Waco, State Senator for the 13th District, spent the night in Cameron Tuesday and was a guest of B. F. YOUR Invasion

From General Bradley, leading the Invasion ground forces, right through every rank, American men now face a brutal, desperate, able enemy. For this invasion has only begun—before our fighters lies a hard and bloody task, one that demands all their courage, backed by all your faith in their ultimate victory.

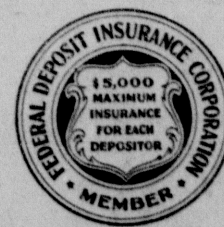

That faith will be tested many times in this invasion—in grim struggles, setbacks, possibly even temporary defeats. It will be up to you to remember that early victories unusually only mean more

savage opposition from a foe made more bitter, more ruthless as the shadow of his doom grows larger—up to you to keep that faith in days and nights of gloom as well as in hours of triumph.

There is little that you can do to show that you realize what they must face, perhaps for many months. But one thing you can do—back the attack with every dollar you can spare! Let the Bonds you buy in this greatest of Drives be the measure of your belief in their ultimate victory.
